_____ RT LT Year _____

_____ RT LT Year _____

_____ RT LT Year _____

Patient Complaints:

Pain /Discomfort Swelling Nipple Inversion Redness Dimpling Bloody Discharge Other Discharge

Palpable Lump? Yes No **If yes, which Side?** L R

Patient signature: _____

The screenshot shows a software interface for mammography. On the left, there is a checklist with the following items:

- Check: Breast Surface (including medial, inferior)
- Nipples: Inverted? Discharge? How Long?
- Breast size discrepancy? Which?

 Below the checklist, there is a section titled "Use Pencil to Mark:" with four options: Mole, Lump, Scar, and Pain. Below that, it says "Use Sticky Note to Detail."

 The main area of the interface features a diagram of a breast with four markers: Mole, Lump, Scar, and Pain. To the right of the diagram, there are several control buttons and fields, including "Follow-up (months): Default", "Add views to ultrasound camera", "Auto Print Low Letter", and "Print". At the bottom, there are buttons for "Print", "Cancel", and "Done...".
